### MEDICAL SERVICES AND FIRST AID SELF INSPECTION CHECKLIST

**Guidelines:** This checklist covers the regulations issued by the U.S. Department of Labor - OSHA under the General Industry standard Subpart K - 29 CFR 1910.151 which was adopted by reference. It also covers selected regulations in N.J.A.C. 6:29-1.7, N.J.A.C. 6:22-5.4 and 6:53-5.3 issued by the New Jersey Department of Education.

Medical services and first aid at construction sites covered by the OSHA Construction standard 29 CFR 1926.50 are not addressed as part of this checklist. See the checklist "General Safety and Health Provisions for Construction" for this situation.

- |   | <u>Please Circle</u> |
|---|----------------------|
| 1. Are medical personnel readily available for advice and consultation on work related health issues? [29 CFR 1910.151(a)]  | Y N N/A DK           |
| 2. If a hospital, clinic or infirmary is not proximate to areas where students/teachers are located, is at least one person available who is adequately trained to render first aid? [29 CFR 1910.151(b)] | Y N N/A DK           |
| 3. Are first aid supplies approved by a physician readily available? [29 CFR 1910.151(b) and 1910.252(f)(13)]   | Y N N/A DK           |

SELF INSPECTION CHECKLIST**

---

4. Is there an eyewash fountain or similar device available wherever chemicals (especially corrosives) are stored or used capable of providing a 15-minute continuous water flow? [N.J.A.C. 6:22-5.4(b)11; N.J.A.C. 6:29-1.7; and 29 CFR 1910.151(c)] Y N N/A DK

5. Are rooms equipped with emergency safety cold-water shower and floor drain or a self-contained water receptacle or catch basin where open flames and/or hazardous chemicals (especially corrosives) are used? [N.J.A.C. 6:22-5.4(e)4 and 29 CFR 1910.151(c)] Y N N/A DK

Note: Home economics classrooms are an exception to the New Jersey requirement, but not the OSHA requirement.

6. Do all individuals handling blood and body fluids follow universal precautions? [N.J.A.C. 6:53-5.3] Y N N/A DK

Note: Under N.J.A.C. 6:29-2.5, a school district must develop written policies and procedures for sanitation and hygiene when handling blood and body fluids. In addition, the school district must make available training and appropriate supplies for handling of blood and body fluids to school nurses, custodians and teachers.
